## ROOF GARDEN SCHOOLS

Open Air Instruction for Children with Tubercular Tendencies.

In the great cities of this country provision is being made for the open air instruction of children suspected of having consumptive tendencies. Carefully wrapped in warm outer garments the little pupils are exposed to the invigorating out-door atmosphere during the entire school day. Pure, fresh air and cleanliness are the first essentials for the treatment of consumption. Prompt attention to every incipient cold is the surest method of preventing the culture of the tubercular bacillus in the throat or lungs. Every parent could be made to appreciate the importance of using virgin oil of pine at the first evidence of a cold or sore throat, ninety per cent of our cases of consumption could be prevented. Virgin oil of pine is prepared by the Leach Chemical Company, of Cincinnati, Ohio, and is sold by all druggists. It can be mixed at home, according to the instructions on the wrapper, and will cure a cold more quickly than any patent medicine or so-called cough remedy. Being a simple and natural vegetable oil, it is free from all the evils that attend the use of drugs and secret formulas.

## MAIL FROM EAST AGAIN ARRIVES

**After Four-day Tie-up, Trains Reach El Paso From Kansas.**

The El Paso & Southwestern has again been able to resume its through train service between El Paso and eastern points, after being tied up for nearly four days. Likewise eastern mail has been received after being tied up that many days.

The first trains came in Sunday about noon and since that time trains which have been snowbound in Kansas have been arriving. No trains previous to that had arrived in El Paso since last Thursday.

The Rock Island main line is still snowbound and the train service has only been resumed by detouring trains around the Cheyenne branch.

A Rock Island-Southwestern train arrived at 12:35 p. m. Monday, only five hours late. The station employees were making up a pass to present to conductor J. H. Long for bringing the train in so nearly on time, but conductor Long was not sure whether it was No. 1 of Monday, Sunday or Saturday.

# "WORLD OF WHITE"

## Proves the Principal Store Attraction of this Vicinity

STORE crowded, sales soaring, values winning enthusiastic approval—such, in brief, is the story of the opening hours of this real triumph in white goods retailing. It is already an established fact that white goods buying at this season can most profitably be centered here. Assortments provide the most complete selection of new white yard goods, white outer and under wear, white staples, etc. Weeks of time and effort were devoted to preparing for this event—to searching the markets, viewing goods, separating the wheat from the chaff and using spot cash as the lever to close deals at most advantageously low prices. The "World of White" continues with all its attractions—tomorrow's hosts of shoppers will find all that met with the instantaneous approval of those who have already bought.

**Now Is the One Best Opportunity to Supply White Goods Needs for Weeks to Come**
